

## Risk Assessment – Scalextric

Hazard Area	Risk	Existing Controls	Likelihood 1 - 5	Severity 1 - 5	Risk Score L x S	Action to take
Giant Scalextric	Danger of being struck by flailing limbs.	Spectators are Not permitted to lean over the race area at any time.	2	4	8	None
Giant Scalextric	Danger of unnecessary injury.	Ensure that no one with a history of back or neck problems or who suffers from a heart complaint, is feeling unwell or suffering the effects of alcohol or drugs & Pregnant women may NOT use any equipment at anytime.	1	5	5	None
Giant Scalextric	Unable to locate the safety cut out.	Unfortunately, anyone who is visually impaired or blind is not permitted to enter the race area.	1	3	3	None
Giant Scalextric	Adverse weather conditions.	The race area will be closed off in heavy rain and is not permitted to run in strong winds as both these conditions can be deemed a health and safety risk.	Dependant on weather	Dependant on weather	Dependant on weather	None
Giant Scalextric	Injury through lack of supervision.	A fully trained operator must be present within the race area at all times, in the event that the operator is not in view Do Not enter the simulator under any circumstances.	1	5	5	None
Giant Scalextric	Injury through incorrect positioning.	Do not move or try to reposition the race area under any circumstances.	1	2	2	None
Giant Scalextric	Injury through mechanisms.	Hands and feet must be kept away from all moving parts.	1	5	5	None
Giant Scalextric	Choking	No food drinks or chewing gum to be allowed on or near the simulator.	1	4	4	None
Giant Scalextric	Injury through 3 <sup>rd</sup> party items	All shoes, glasses, jewellery, badges MUST be removed before using the race area	1	5	5	None
Giant Scalextric	Injury through 3 <sup>rd</sup> party & spectators.	Always ensure that the area surrounding the simulator is not overcrowded.	2	3	6	None
Giant Scalextric	Injury through 3 <sup>cars</sup> leaving the track	Always ensure that the area surrounding the simulator is not overcrowded and that people are paying attention to the game. Cars will inevitably leave the track so please ensure all participants are paying attention.	2	3	6	None
Giant Scalextric	Emergency	In the event that someone is seriously injured, DO NOT move the individual and dial 999 immediately.	1	5	5	None
Giant Scalextric	Injury through bouncing out of the inflatable ring.	Ensure that an area of 3 feet (1 meter) around the unit is completely clear and ensure the area in which the simulator is to be erected is completely swept of debris, before our arrival if possible.	1	3	3	None
Giant Scalextric	Unruly Behaviour.	The most important rule of all is that the operator's decision is final, refusal to abide by the operators guidance will result in ride refusal & in extreme circumstances closure of the simulator.	1	2	2	None

L=Likelihood S=Severity L\*S= Risk 1=Low 5=High

Risk is worked out using numbers 1 - 5. The likelihood is given a number and this is multiplied by the number given to the severity of the risk.

The result = the risk factor. This generic risk assessment is brief and we have our own individual assessments for each individual risk, 25 being the worst possible outcome, any item reaching 25 would give serious cause for concern & we would not be able to erect the rodeo unit.

It is recommended that clients undertake their own risk assessment to suit their requirements.
